Scale based on league rankings (international associations) and Francisco Calisto's scouting overview.

Analysis Methodology

Scouting analysis - Observation of the player and framing it in its context. Four dimensions of analysis: social, cognitive, technical-tactical and physical | Performance analysis - In loco/Wyscout/InStat. Quantification of the data collected and comparison with the average data from the athlete's competition and above | Inter-contextual analysis - Place the evaluation made of the player on a numerical scale of competitiveness.
